FOREIGN IMMIGRANTS ARRIVE.

Two Young Scotchmen Have Reached Savannah from New York.

Savannah, Ga., Jan. 31.—Two Scotchmen, the first of the foreign immigrants to arrive in Savannah as a result of the activities of the Georgia Immigration association, reached the city by the steamship from New York, having come, via that entry port, from Scotland under arrangements made with the agent of the association abroad.

Three concerns here immediately upon the arrival of the immigrants, who were high-class workmen, made bids for their labor. A buggy factory secured them. They are young men 23 and 26 years old.

John A. Betjeman, of Alabany, president of the association, was here to welcome the immigrants. Mr. Betjeman said that at the coming of immigration convention to be held at Macon there would be immigrants, recently arrived, who would be brought from Savannah, Rome, Atlanta and other cities to show the convention the class of new citizens who are being secured for Georgia.

The party was entertained at dinner at the Drummers' house, after which a business session was held by the trustees. The contract for the erection of the buildings was awarded to Algernon Blair, of Montgomery, Ala., whose bid was $31,000.

Scandalous Conditions Found.

Chicago, Jan. 31.—A dispatch to the Tribune from Washington says that scandalous conditions have been found in various government departments as a result of the investigations being made by the house committee on appropriations. The committee has discovered that in one branch of the public service, contracts have been let at exorbitant prices for material invented by an employe who was a member of the board which made the award. In another department contracts have been awarded for material in the manufcture of which officers was engaged. In still another inventions which were developed by employes during their government service have been used by the government at a high cost.

Haldeman former London manager of the Mutual Life Insurance company of New York, and the North British Mercantile Insurance company in the suit of the Mutual company asking for an injunction and indemnities. Justice Eady said the plaintiffs' case had wholly failed against both defendants and it was, therefore, dismissed with costs against the Mutual company.

THAW MAY PLEAD THE 'UNWRITTEN LAW'

Selection of Southern Man As One of the Jurors

IS VERY PLEASING TO THAW

Selection of Jurors Proceeds Slowly. Same Intense Interest, However, Is Maintained In Sensational Case Which Means Life or Death.

New York, Jan. 31.—Harry Thaw is delighted that one of the men who are to pass upon his life or death is a southern man—John S. Dennee, of Louisiana.

This may mean that Thaw's plea will be the "unwritten law," or it may not. At any rate, young Thaw beamed with delight when he heard that Dennee was a southern man.

The work of securing a jury to try Harry K. Thaw was resumed Wednesday, but the prospects of filling the box are most dubious because of the surprise Tuesday when two jurors which had been sworn, were excused. Two additional jurors, however, were drawn Tuesday, leaving nine men in the box when court adjourned for the day.

What caused the withdrawal of Jurors Campbell and Faire has not developed, counsel on both sides maintaining strict silence on this point, but the action itself leads to a belief that there may be a further weeding out of the jurors already sworn and that the taking of testimony may consequently be postponed until late in the week or possibly next week.

District Attorney Jerome introduced a new figure into the case Tuesday when he asked talesmen if they knew Cincinnati, and a Mr. Baker of that city.

Nobody confessed to knowing Mr. Baker, and the defense seemed surprised at the introduction of the name.

Thaw's counsel professed entire ignorance of what the district attorney had in mind, and would hazard no explanation. Mr. Jerome was equally uncommunicative. From questions asked by talesmen by the defense on Tuesday it appeared that the prosecution will have to consider more than one line of defense.

The district attorney in his examination of talesmen has been very insistent that jurors should remember that the court and the court alone may define what is insanity from the legal point of view.

Lawyer Gleason in examining Mr. Henry Peacock directly, asked him if he had any prejudice against a defense based on the insanity plea, and then pressed him to know if he was quite sure what it meant.

On the other hand Lawyer Hartridge asked several talesmen if they would object to more than one line of defense and so it appears that Thaw will attack the people's case from several points.

As the trial progresses Thaw appears to better advantage each day. His spirits seem to rise as the day of the real trial gets nearer, and Tuesday he was apparently one of the happiest men in the court room. It was only when he stood while a juror was being sworn that he was solemn and appeared to appreciate the gravity of his situation. Thaw showed his love for his mother again Tuesday as he was leaving court for the day. In passing, he stooped, kissed and whispered words of cheer which made her smile. Thaw continues to watch the selection of jurors closely. Four times Tuesday he caused his counsel to issue peremtory challenges.

Three vacant chairs in the jury box Wednesday morning appeared as a formidable barrier to a beginning of the taking of testimony before Thursday afternoon or Friday. The average of jury selection has heretofore been two a day. The action of the court in excusing two of the sworn jurors Tuesday afternoon has lent an air of uncertainty to the proceedings, and even the attorneys in the case are not willing to hazard a guess as to when the jury may be completed.

Justice Fitzgerald threw something of a bombshell into the camp of the newspaper artists in the court room by announcing through the court officers, that no more sketches should be made during the trial. This came as a complete surprise. Artists from most of the principal cities of the East have been in court from day to day, and have not been restricted hitherto in any way, whatsoever.

Thaw was disappointed on entering the court room to find that his wife was the only member of his family present. The others, it was stated, had been detained up-town by the heavy snowstorm which began early Tuesday night and continued Wednesday.

There was a wild story going the rounds of the criminal courts building Wednesday to the effect that there was a fund of $10,000 for use in corrupting a juror.

Harry C. Brearley, an advertising agent has been accepted as the tenth juror in the Thaw case.

DELAYED BLAST KILLS MEN.

Four Italians Were Killed Near Moccasin Gap.

Bristol, Va., Jan. 31.—At Camp No. 4, of the S. Walton Contracting Company, on the South and Western railway, near Moccasin Gap, a few miles west of Bristol, four Italians, whose names are unobtainable, were killed by a delayed blast.

The force was working in a cut on the South and Western right-of-way, and had prepared three blasts in a massive rock. The fuses were lighted, and the workmen retired to a safe distance until the explosion came. The men then returned to work, when one of the charges, that had failed to explode, went off, killing four Italians and injuring several others. The bodies of the victims were terribly mangled. The remains of the men will be buried near the scene of the accident. The S. Walton Contracting company sent to Bristol this afternoon for a Catholic priest to conduct the services.

Blow Restores Man's Sight.

Baltimore, Md., Jan. 31.—Rev. Samuel H. Cummings, a Methodist minister of Baltimore, and toatally blind for twenty-five years, has had his sight partly restored by a blow. Last Saturday he slipped on the icy pavement and fell face downward. A bit of projectiing ice struck his eye with painful force, but when he got up he found that the blow had shocked one eye into seeing, although indistinctly. Mr. Cummings was able to read the title on a magazine cover. He says he can distinguish persons, but that they are out of proportion and strangely confused.

Negress Burned to Death.

Macon, Ga., Jan. 31.—Helpless, but aware of her impending fate, Mattie Conner, an ante-bellum negress between 90 and 100 years of age, lay upon her cot in Murray's alley and watched fire that consumed portions of her home, and finally dealt death to herself and a negro child, Oscar Wood, a babe not of sufficient age to escape from the fire. No one saw the fire until it was impossible to rescue the helpless occupants, and when the firemen extinguished the fire they found the bodies burned to a crisp.

Swalowed His Own Brains.

Decatur, Ill., Jan. 31—"Death from swallowing his own brains," was the verdict rendered by a coroner's jury at the inquest over the body of George E. Thomas, an Illinois Central brakeman, who was injured by faling into some pumping machinery. The base of Thomas' skull was broken in such a way that the man's brains oozed down into his throat and he swallowed at intervals for several hours, during which nearly all his brainis had oozed through the aperture in the skull. Large Offerings of Peter's Pence.

Rome, Jan. 31.—Complaint is made at the vatican regarding the reports that have become current to the effect that large offerings of Peter's Pence are pouring in from al parts of the world. It is stated that the reports are spread by persons evilly disposed with a view of discouraging the faithful from sending money to the fund. Far from having a surplus, it is stated this fund is diminishing and that this is a serious matter just now when the need of money is increasing.

RIVER IS RISING AT NEW ORLEANS

Hundreds of Men Are Repairing the Levees.

RIVER IS AT TOP OF THE LEVEES

Timbers, Earth and Sand Bags Being Used to Keep Back the Water In an Effort to Save 1400 Feet of Railroad Trestle Work.

New Orleans, La., Jan. 31.—The river has risen about two-tenths of a foot in the past twenty-four hours and is now even with the top of the levee at two points. The work of re-inforcing the levee with bags of sand and earth continues and no apprehension is felt for the safety of the city and its suburbs.

At Bougere, La., on the Port Allen branch of the Texas and Pacific railroad 250 men are engaged in piling timbers, earth and bags of sand high above the tracks in an effort to save 1400 feet of trestle work. Bougere is in the unprotected levee district and as the high water came much sooner than expected it caught the railway people unprepared. General Superintendent Paul expressed the belief that the men would succeed in checking the ravages of the flood.

Levees Watched by Guards.

New Orleans, Jan. 31.—At two low points along the business water front of New Orleans, Canal street and Jackson avenue respectively, the river rose to the top of the levee. Several hundred sand bangs were used to hold back the water. No worry has been created by this rise, because in past rises the same poinits have been protected successfully with sand bags against water overtopping the levee by 3 feet. The water is scarcely an inch above the levee, the stage being slightly over 18 feet, with predictions for another rise of a foot within ten days. Outside the city armed guards have begun to patrol the levees. The Ponchartrain levee board, controlling levees northward to Baton Rouge, has appropriated $25,000 for emergencies.

Natchez, Miss., Jan. 31.—A light rain fell here Wednesday morning and it is feared that if it continues for any length of time, the levees will become saturated and slough off or break. The river continues to rise at the rate of two-fifths of a foot a day.

Prof. Behring Not Insane.

Naples, Jan. 31.—The report that the professor, Emil Behring, of Berlin, the discoverer of the diphtheria serum, has been placed in an insane asylum, is declared by his relatives at Capri to be without foundation. They say the professor is merely suffering from nervous breakdown, due to overwork, and especially his efforts to find a cure for consumption.

Nice, Jan. 31.—Mms. Makaroff, widow of the admiral who perished at ort Arthur, who has been sojourning here has been robbed of her case of jewels, containing al her diamonds, rubies and pearls valued at several thousand francs. A decoration given her by the Emperor of Russia was also stolen.

Martial Law at Valencia.

Knoxville, Tenn., Jan. 31.—A fatal accident occurred at the plant of the Harriman Extract company at Harriman, 50 miles north of here. A bleaching tank, which was being removed, fell, killing Willey Lefew and seriously, if not fatally, injuring another workman.

GULPEPPERS STILL DOING GOOD WORK

Fully a Thousand People Attended Religious Services Thursday.

A TALK TO THE WOMEN

At the Methodist Church Thursday Afternoon Attracted a Large Crowd. A Stirring Sermon at Tabernacle, in Which Dancing Was Discussed.

The religious fervor of Gainesville under the powerful influence of the Culpeppers is growing warmer day by day, if such a thing is possible, and it is generally regretted that the famous evangelist and his interesting son will be compelled to soon relinquish their efforts for the cause of Christ here.

The morning and afternoon services Thursday were held in the First Methodist Church, but so eager have become the crowds that the church at the evening service will not begin to accommodate those who desire to attend, hence the meetings have been transferred to the Tabernacle, where the first service was held Thursday night, which was attended by fully a thousand people.

The morning service Thursday was well attended. In the afternoon the elder Culpepper made an address exclusively to the ladies, and this meeting was attended by 500 women and girls. The lecture was an eloquent and impressive one, and all present at the conclusion felt that they had been benefited.

The elder Culpepper preached at the evening service—and a ringing sermon it was, too, touching deeply the audience. Mr. Culpepper as a prelude to his sermon gave his attention to the evils of dancing and the ball-room, quoting from eminent authorities of the Presbyterian Church opinions showing that dancing was evil in influence and inconsistent in church members. He is not yet through with this subject, and stated that tonight he would speak on it again.

The subject of the sermon Thursday was "Be Sure Your Sin Will Find You Out," in which the speaker showed how true this is in the course of human life, when all who have a sin must meet it.

Upon invitation, at the evening service fourteen persons came forward and united with the various churches, making a total of sixty-three who have joined during the present revival.

All services will be held in the Tabernacle today. The hours are 10 a. m. and 3 and 7:30 p. m. The public is invited.

THE GUARDS ELECTION.

Two New Lieutenants Chosen Wednesday Night—Meeting Well Attended.

At the regular meeting of Company H, Second Infantry, Florida State Troops, of which Captain J. W. Blanding is commander, two lieutenants were elected Wednesday night to fill vacancies which have existed for some time.

Shields Warren, receiver of the United States land office, was chosen as first lieutenant, while the honor of second lieutenant fell to Willian D. Wheeler.

Mr. Warren is already in commission in the State Troops, being first lieutenant of Company L, the Franklin Guards, Apalachicola, hence it will be only necessary to secure a transfer. He is a thorough military man, and is said to be one of the best posted tacticians in the State. His election, therefore, will prove of great benefit to the Gainesville Guards.

Mr. Wheeler is also a young man who understands military thoroughly, being a graduate of East Florida Seminary. He is quite popular among the men, and will make a valuable acquisition to the company as an officer.

DEATH AT ARCHER.

Mrs. Sarah A Hodgson Passed Away After Long but Patient Illness.

Further particulars of the estimable lady's death will appear tomorrow.

Killed a Big Cat.

A few days ago while C. J. Fletcher, superintendent of the naval stores department of Bell & Colson, was out on a wildcat hunt, he succeeded in killing an immense cat which tipped the beams at thirty-five pounds.

The cat was jumped by the dogs, and was giving them a lively and interesting fight when the hunters arrived upon the scene. With a pistol Mr. Fletcher fired, and, at a distance of fifty feet, killed the animal at the first shot. It was an excellent piece of marksmanship, which goes to show Mr. Fletcher's accuracy in handling firearms.

Are you a lard eater?

Half the time when a person feels blue and out of sorts you may take it for granted that he is a victim of the "lard habit." Lard cooked food and good stomachs are never friends for long. Lard food is not healthful food and no ordinary stomach can thoroughly digest it.

Cottolene is the perfect shortening and frying medium. It is pure and healthful. It contains not an ounce of hog-fat. Lard comes from the pig-sty; *Cottolene* from the cotton fields of The Sunny South.

Lard is hog-fat; the basis of *Cottolene* is pure cotton seed oil. Lard is greasy, indigestible, and sometimes absolutely harmful; *Cottolene* makes food digestible, nutritious, delicious and healthful.

Cottolene is today in use by thousands of housewives who would no more think of going back to lard than they would of reverting to tallow dips for lighting their homes.

Cottolene is endorsed by the most prominent cooks and household economists of the country, as well as by the medical profession. It is one of the products which pure food advocates always endorse.

COTTOLENE was granted a GRAND PRIZE (highest possible award) over all other cooking fats at the recent Louisiana Purchase Exposition, and food cooked with COTTOLENE another GRAND PRIZE.

"Home Helps" a book of 300 choice recipes, edited by Mrs. Rorer, is yours for a 2 cent stamp, if you address The N. K. Fairbank Company, Chicago.

A NEW FEATURE—The patent air-tight top on this pail is for the purpose of keeping COTTOLENE clean, fresh and wholesome; it also prevents it from absorbing all disagreeable odors of the grocery, such as fish, oil, etc.

Camp Was Deserted.

The camp of the Uniontown, Pa., party, which is located near Palmer, was about deserted Thursday. Dr. J. A. Batton spent the day in Gainesville with his friend, Dr. Herzog, while Major Bailey, Isaac Batton, Morgan Higginbotham and W. W. Parschall, accompanied by George Taylor, went to Cedar Key for a day's fishing. Walter Titlow, another member of the camping party, was compelled to cut his stay short for business reasons, and left for his home via the East Coast.

The Uniontown crowd is a jolly one, out for a good time—and they have it.

SHIPPERS PERFECT AN ORGANIZATION

Prominent Growers and Shippers Assembled in Jacksonville.

IS CREDIT TO LOCAL MEN

The Movement Was Originated by the Gainesville Melon Growers' Association—Object to Secure Equitable Rates on Shipments to All Sections.

To the Gainesville Melon Growers' Association belongs the credit of the existence of the Florida Fruit and Vegetable Shippers' Protective Association, which was organized in Jacksonville Wednesday afternoon with most encouraging prospects, and the Gainesville Association was honored by the election of one of its most active members as the State association's first president.

Sometime ago the Gainesville Melon Growers' Association conceived the idea of forming a State organization for the mutual benefit of all growers in the State in the matter of securing equitable rates of transportation to all markets of fruits and vegetables, and to otherwise protect the interests of the grower and shipper of Florida. There was no definite action, however, until the last meeting of the local association, when it was agreed to send out circular letters to the various growers, calling a meeting in Jacksonville on January 30, for the purpose of organizing.

As a result of this call, one of the largest and most representative assemblages of growers and shippers ever brought together in the State met Wednesday afternoon and organized, the title of the State organization being the Florida Fruit and Vegetable Shippers' Association.

The growers and shippers met and perfected a temporary organization by electing Wm. R. Fuller of Tampa, chairman, and F D. Warner of Gainesville, secretary. A committee was then appointed to select a name, and the report of this committee as above was adopted.

A committee on constitution was appointed and made its report, which was accepted, after which a permanent organization was formed by the election of the following officers:

President—F. D. Warner of Gainesville.

Vice-President—W. L. Preston of Manatee.

Secretary and Treasurer—A. J. Chase of Jacksonville.

Then, the original plan of having each section name its respective member of the board of directors, was taken up and the following were named as members of the board:

A board of directors was also appointed, as follows: W. A. McClung of Hastings, Z. T. Beilby of DeLand, H. H. Chappell of Sanford, J. J. Heard of Arcadia, H. T. Montgomery of Tampa, L. B. Skinner of Dunnedin, W. L. Preston of Manatee, A. G. Liles of Bradentown, John J Bridges of Coleman, C. A. Colclough of Gainesville, J. M. Truby of Starke, H. E. Heitman of Fort Myers, G. W. Franklin of Leesburg and Sarasota, E. P. Porcher of Cocoa, F. B. McMillin of Eden, W. H. Cook of Pomona, Charles Churchill of Lawtey, E. L. Howell of Anthony and D. H. Gilbert of Monticello. The president and secretary are ex-officio members of the board.

The board of directors will appoint an executive committee, and that committee will call another meeting when it is deemed necessary.

Among those who attended the meeting from this county were F. D. Warner, O. P. Cannon, C. A. Colclough, C. W. McDonald, J. S. Jarvis and Joseph Tinsley of Gainesville, A. H. Emerson and M. J. Ward of Tacoma.

ROAD WORK PROGRESSES.

Fine Progress Being Made on the Gainesville-Newberry Road.

The work of building hard roads progresses nicely, and the efforts of each day adds new road and better road to the county.

Messrs. Thigpin and Waits, road overseers, who have been at work for some time constructing the public road from the University in a westerly direction, report fine progress. They have a good force and several teams employed, and are constructing a good and lasting thoroughfare which will prove a source of satisfaction for years to come.

Messrs. Waits and Thigpin are good road-builders, and if given an opportunity will show the people of Alachua county a thing or two in the construction of desirable thoroughfares.

MELROSE NEWS NOTES.

Death of Mrs. Darlington, An Old Winter Resident—Other Notes.

Melrose, Jan. 30.—"Mrs Darlington is dead!" was the sad news passed around in Melrose on Sunday morning. It was generally known that this kind-hearted and highly esteemed lady was in very feeble health for sometime, but few of her many Melrose friends realized they seen her alive for the last time when she left here last spring after her usual winter visit. Mrs. F. J. Darlington died at Westchester, Pa., on Wednesday, Jan. 23rd. Her death has brought great sorrow to her children, relatives and friends, for she was a most kind and affectionate mother and a sincere and loyal friend. Mrs. Darlington was much loved in our town, where she has been an always welcome winter resident for over twenty years, and her memory will ever be cherished by those who had the privilege of being among her friends. She was an earnest member of the Methodist church, showing great interest in Melrose Methodist church by her many kindly gifts. The deep sympathy of the entire community is extended to her sorrowing children.

Mrs. Caldwell leaves tomorrow for a trip to Nassau, B. I., to visit friends. She expects to be absent about four weeks.

The new furniture for the Masonic Hall has arrived and is being put in the lodge room, and active preparations are being made for the oyster supper and dedication on next Friday.

The election of new officers of the Ladies' Literary and Debating Society will be held at their hall on February 8th, at 2:30 p. m.

NATURE'S CATARRH CURE.

Sensible and Scientific Way to Cure This Disagreeable Disease.

Nearly everyone suffers at one time or another with catarrh.

The natural way to cure this disagreeable disease is by applying healing medications direct to the diseased spot.

In no other way can this be done as naturally as by the use of Hyomei, breathed through the neat pocket inhaler that comes with every outfit.

Put several drops of Hyomei in the inhaler and then for a few minutes, four or five times a day, let the air you breathe come through it. In that way all the air that enters the nasal passages, the throat or the lungs, is filled with Hyomei's healing medication, reaching the most remote air cells of the respiratory organs, destroying all catarrhal germs and soothing and healing the irritated mucous membrane.

A few days' use of Hyomei will show how quickly it relieves all catarrhal conditions, and you will not have to use it long before you find it has effected a complete and lasting cure.

So strong is J. W. McCollum & Co's. faith in the power of Hyomei to cure catarrhal troubles that with every dollar outfit they give a guarantee to refund the money unless the remedy gives satisfaction. They take all the responsibility and you cannot afford to suffer longer with catarrh when an offer like this is made to you.

Should extra bottles of Hyomei be needed they can be obtained for 50c, making this one of the most economical as well as the most reliable remedies for catarrh that is known.

Children and Dogs.

The child who is taught to love animals and to have a dog as a companion is introduced to a friend of the truest and best kind—the kind of friendship that lasts. Have you never had a dog? Then you don't know what pleasure can be had in his companionship in rambles, in his quiet presence in your room, his unobtrusiveness when human company would bore you; a "chum" who always adapts himself to your mood when man or woman would jar upon you. By all means cultivate in children a love of animals, especially of "man's best friend," the dog.—New York Herald.

Anglicized French.

For two centuries we have been crying "Encore!" at the end of a song, where a Frenchman never says it, his own equivalent for it strangely being the Latin "Bis!" And "on the tapis" appears in English far more often than in French, and misunderstood at that, since it does not mean "on the carpet," but on the tablecloth of the council table for discussion.—London Chronicle.

CLOSE FIGHT IN MURDER CASE.

Jim Reed Put on Trial the Second Time for Killing.

Gainesville, Ga., Jan. 31.—The case of the state versus Jim Reed, charged with the murder of Hoke Hunt, the 17-year-old son of Dr. W. A. Hunt, of Flowery Branch district, has begun in Hall superior court.

The killing was done in the spring of last year, at a meeting being held at the Flowery Branch church. Reed, together with several other well known young men of the community, was arrested at the conclusion of the coroner's inquest, but subsequently all were released but the above named defendant.

He was given a trial at the July term, 1906, of Hall superior court, but after long deliberation the jury having the case under consideration made a mistrial, and Reed went back to jail to await trial the second time for the offense with which he is now charged.

It appears from what was brought out at the last trial that there was enmity between several young men of the community, and the evidence pointed most strongly to Jim Reed as the probable murderer of the young man, Hunt, he having been seen in company with him the last of those at the church gathering.

A strong effort is being made to save Reed. He has a splendid array of counsel, and a stubborn fight is being waged in his behalf. On the other hand, Dr. Hunt is lending every aid to Solicitor Charters in the prosecution.

The trial will not be concluded in all probability, before a day or so. A jury has been secured and the introduction of testimony has begun.

Even From the Mountains

Ballard's Snow Liniment is praised for the good it does. A sure cure for rheumatism and all pains. Wright W. Loving, Grand Junction, Colo., writes: "I used Ballard's Snow Liniment last winter for rheumatism, and can recommend it as the best liniment on the market. I thought at the time I was taken down with this trouble that it would be a week before I could get about, but on applying your liniment several times during the night, I was about in 48 hours and well in three days." Sold by W. M. Johnson.

Swettenham's Resignation Accepted.

London, Jan. 31.—There is reason to believe that the resignation of Sir Alexander Swettenham as governor of Jamaica, has been accepted though the officials of the foreign office refuse all information on the subject. This official reticence is attributed to a desire to complete the arrangements for a succession to the post before announcing Swettenham's retirement. It is expected that the latter will leave the island as soon as details can be completed for handing over the affairs of his office.

CORONER HOLDS MAN.

Who Telephoned to Doctor that His Wife Had Killed Herself.

Washington, Jan. 31.—Answering a call from W. G. Copely, a census office clerk, Dr. John S. Dorsey, a physician at Langdon, rushed to the man's residence at midnight and there found the wife and three-months-old child of the clerk dead, with several bullet wounds in their bodies.

Copely, Dr. Dorsey said, reported that his wife had shot herself and the babe.

"My wife has shot herself, and I want you to hasten to the house at once," Copely is said to have exclaimed when he aroused the physician.

When the doctor arrived at the residence of Copely both Mrs. Copely and the baby were dead. The former had been shot in the right side and the latter was shot through the head.

Dr. Dorsey notified the police of the Ninth precinct as soon as he grasped the situation, and as a result Copely was placed under arrest.

Dr. Dorsey Wednesday morning refused to discuss the shooting or give any of the details which had been learned by him through his connection with te case.

Applicants Hard to Find.

Washington, Jan. 31.—The first of the examinations for the consular service under the new rules laid down by Secretary Root has been fixed for March 14, next, and the result is awaited with a good deal of anxiety by persons interested in the development of the consular service on civil service lines. So far, scarcely more than half a dozen persons have been designated for the examination, though it is expected more than twice that number of vacancies in the consular service will exist by the date named. The trouble lies in the difficulty in finding applicants properly equipped technically with the necessary knowledge of two or more languages and at the same time possessing an acquaintance with worldly affairs and business methods likely to make them good consuls.

Thousands Attended His Funeral.

London, Jan. 31.—The unusual public interest in the Whitely tragedy was shown by the scenes at the funeral of the merchant. Thousands of people gathered about the Whitely residence and dence masses lined the streets, leading to the church. Most of the shops in the district kept their shutters up, and more than a hundred carriages followed the hearse to the cemetery. Four of these were laden with floral wreaths.

Governor of Prison Killed.

Rhode Island is going to repeal her law for the protection of deer. Under its operation the deer have become so numerous as to be a nuisance, ruining crops and causing a great deal of damage. Nor does that mean that there are a great many deer in Rhode Island, either. With Southern iron bringing from $18.50 to $19 a ton, subject to future delivery, that section of this glorious Southland which produces this commodity is certainly in clover. A representative of a large iron concern in New York a few days ago announced that it would continue to sell at these prices, and that there is now in the yards of Southern companies approximately 60,000 tons, all of which has been sold, but cannot be delivered owing to the inability of the railroads to handle it, on account of shortage of cars.

To a Southern man will be let the enormous contract of digging the Panama canal, provided the bidder can meet the requirements from a financial standpoint. The President and Secretary Taft, in a recent conference, decided to give the contract to William J. Oliver, Knoxville, Tenn., providing he can form a combination with two reliable contractors within ten days, and raise $5,000,000 capital, $1,500,000 cash, $1,500,000 in solvent subscription, and $2,000,000 in the nature of a bond for the faithful performance of the work.

Announcement is made that The Tampa Evening News has again changed hands, and is now owned by a stock company, with W. F. Stovall of The Morning Tribune president, Ed Lambright, managing editor of The Tribune, vice-president, Hewett Hill secretary, and C. B. Young treasurer. It is the purpose of the new owners to improve the sheet, giving Tampa one of the brightest afternoon papers, containing Associated Press dispatches, in the State. It is understood that Mr. Lambright, who is one of the best writers in Florida, will assume the position of managing editor, a position which he also holds with efficiency on The Morning Tribune.

While the question is now before the public, the merchants and business men of Gainesville, High Springs and other points interested, should exert every effort in the matter of inducing the Atlantic Coast Line to inaugurate a convenient schedule between Gainesville, High Springs, Alachua and points in the West End on the Jacksonville & Southwestern branch. With a proper schedule, parties residing in the West End, as far west as the Suwannee river, as well as those of High Springs and intermediate points, could come to the county capital, transact their business, and return home the same day. Under the present service this is an absolute impossibility.

RIVAL REPUBLICAN FARMERS.

Spencer Borden of Fall River, Massachusetts, is ambitious to enter the President's Cabinet and his eye is fixed on the position of Secretary of Agriculture. He lays claim to fitness for the position as a cotton manufacturer and as a breeder of Arabian horses. The knowledge Mr. Borden has of cotton is without doubt most extensive, but whether he knows better than Farmer Wilson, the present Secretary, how to overcome the failure of the imported Guatemala ant to devour the boll weevil is a matter in doubt, or a State secret that he has only imparted to President Roosevelt. But when it comes to Arabian horses Mr. Borden is sure of his ground and declares that: "In my opinion an improved type of horse for the American army could be produced by breeding the cow ponies of the West to pure or half-bred Arabs." Good Farmer Wilson, not long ago, pinned his faith to Angora goats as the most profitable and useful farm animal, and it cost the taxpayers many hard earned dollars to print and distribute free his learned disquisition on the devastating animal. It is only a few short months ago that a farmer who had been beguiled by Farmer Wilson into breeding a herd of Angoras was petitioning the President to recommend to Congress to take them off his hands and pay for the damage done. That unfortunate farmer had paid, on the strength of Farmer Wilson's advice, $500 for an imported Angora billy goat, and he was sick of his bargain. How sick farmers and taxpayers in the future will be if Mr. Borden should be installed as Secretary of Agriculture and should—as he evidently would—issue a pamphlet on the advantages and profit of breeding Arabian horses, is for the future to unfold.

Some too ardent friends of Good Farmer Wilson hint that Mr. Borden is overstocked with Arabian horses and wants to officially create a market for them, but that is probably a libel on this patriotic Republican. We all know he has made a great fortune in manufacturing cotton, and, protected by the tariff, has been able to add to his great wealth at the expense of the American consumer, who is now paying nearly 100 per cent more for cotton goods than was the case before the present tariff law was enacted.

The Sun, with all good people, rejoices over the apparent reformation which has been brought about by the presence of the Culpeppers and their revival services. A large number of accessions have been made to the various churches, and a number who have heretofore appeared indifferent to the side of religion have professed faith, and entered a determination to do better things in future. Gainesville has for a long time enjoyed a distinction throughout the State as being one of the most moral and God-fearing cities in Florida; but even in the most moral of localities there is always to be found material, hence the coming of these famous evangelists has resulted in a mutual Godsend to the community and its individuals. It is to be regretted that the Culpeppers cannot prolong their work here.

The United Fruit Company has purchased in New Orleans a tract of land to be used as a coaling station. This company has been buying from the Pennsylvania fields an average of about 125,000 tons per annum, but in future the supply will come from the Alabama mines.

What a paradise if every daughter in the land were to determine: "I want to do my part to make our home the nicest, kindest and prettiest home in the world." If that were done our fathers and sons would boycott the club-rooms and linger near the fireside always.

SERMONETTES

BY J. MARVIN NICHOLS

Mr. Holt, the Englishman who toured this continent, said to the British press on his return home: "The American woman is just delightful, and the American man, the typical American, whether cowboy or millionaire, is one of the very best fellows in all the world." What ever else may be said of President Roosevelt, he is an American.

Have you never noticed that the neglected waif on the streets and slums is often more fearless than the petted and pampered child of luxury? We begin life wrong. From infancy children are met by constant affirmations of something to be afraid of, and these become interwoven into the thread of their imaginations more or less strongly according to their temperaments. Most always our difficulties are in proportion to our fears.

Some author, whose name has eluded me, said in LIFE that we are doomed to spend our energies and time in little, insignificant services. There is no escape from trivial details. Like children, we are continually yearning for something big to do. Like children we fret at that restraint that holds us in our little sphere. We are tied, fast and tight, to a routine of details which seem devoid of every element of greatness. We are not conscious of the fact that each of these little services to which we unselfishly give our souls becomes a pearl of passing value. The content of the noblest lives is only a monument of these pearls. But we are disposed to dream, and our dreams dazzle our eyes with gaudy pictures. Our hearts, like caged birds, beat upon the prison bars that shut us in the wider and even more gorgeous world of our dreams. We fondly believe that our vision-world is the real world for us. We feel that it is a cruel fate that shuts us from it. We refuse to learn a lesson from the countless millions who, like us, have dreamed and hoped—only to reap the bitter fruit of dreams. We still cherish the delusive hope that in some way we shall meet a kindlier fate. Wisdom comes to us only in the last hour—and comes to help us embalm our dead images and retouch our faded dreams.

BAD BREATH

"For months I had great trouble with my stomach and used all kinds of medicines. My tongue has been actually as green as grass, my breath having a bad odor. Two weeks ago a friend recommended Cascarets and after using them I can willingly and cheerfully say that they have entirely cured me. I therefore let you know that I shall recommend them to any one suffering from such troubles."

UNPROFITABLE FEEDING

Intelligent stock raisers know that a certain amount of feed is necessary to keep an animal alive. They might feed that amount as long as it lives, and it would never gain a pound.

There is no profit in that kind of feeding. The kind that pays is the kind that builds flesh rapidly. If it takes twenty pounds of food each day to keep a sheep alive, twenty-five pounds a day will make it gain flesh. It's the extra five that brings the profit. The first five pounds amounts to nothing, nor does the second or third or fourth five pounds.

It's the same way with advertising. You have to do a certain amount to overcome the resistance of the public.

You have to do a certain amount of advertising to make them wake up to the fact that you are in business at all. You have to pay a certain amount to keep your advertising alive. What you pay above that amount brings profit.

Some advertisers fail because they do not use enough space. They use barely enough or sometimes not quite enough to make the advertising self sustaining. A little bit more would make it profitable. It is better to advertise a little too much than not quite enough.—Charles Austin Bates.

Some of our advertisers could enlarge their space with profit.

CONFUSION NOW EXISTS.

Separation Having Been Accomplished Anything for Peace.

Paris, Jan. 31.—The French cabinet has hardly recovered from its surprise at the proposition which the bishops, with the approval of the pope, submitted to the government for a modus vivendi on the basis of a virtual lease of the churches in perpetuity to the parish priests by the mayors, and apparently some confusion exists as to what course to adopt.

While the off-hand remarks of Minister of Education Briand, in the chamber of deputies last night, the conditions proposed in behalf of the episcopate were unacceptable, do not necessarily exclude the possibility of a compromise, the attitude of the extreme radicals, who are incensed at the peremptory tone of the communication and at the dispatches from Rome representing the vatican to be determined unless the bishops' proposition is immediately and unanimously accepted to order the parish priests to leave their churches and suspend public worship, greatly embarass the moderates. The latter believe that the government, having accomplished the separation of church and state, can afford to accept any definite solution of the difficulties in the interest of peace.

Takes Sides with United States.

Tokio, Jan. 31.—Viscount Hayashi, foreign minister, in reply to a question in the house, expressed deep appreciation of the sympathetic attitude of the United States government in the recent trouble in San Francisco. "Having the sympathy of the American government," he said, "Japan must remain a looker-on until a decision shall have been reached in the test school case instituted in the California courts. In the event of an unfavorable decision the anti-Japanese movement in California will be considered to represent the opinion of the whole United States which would require diplomatic adjustment."

Men Past Sixty in Danger.

More than half mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." Riverhead, N. Y., Jan. 31.—Dr. J. W. Simpson's trial on the charge of murdering his father-in-law, Bartley T. Horner, is proceeding with expedition. The testimony so far related to the medical aspects of the case.

SKIN TORTURES AFFLICT CHILDREN

Obstinate Case of Eczema Covered Little Girl's Limbs with Running Sores—Poison Oak Made Boy's Hands and Arms a Mass of Torturing Sores—Sufferers Soon Relieved and Completely Cured—Grateful Mother Says:

"CUTICURA REMEDIES A HOUSEHOLD STANDBY"

"Last year, after having my little girl treated by a very prominent physician for an obstinate case of eczema, I resorted to the Cuticura Remedies, and was so well pleased with the almost instantaneous relief afforded that we discarded the physician's prescription and relied entirely on the Cuticura Soap, Cuticura Ointment, and Cuticura Pills. When we commenced with the Cuticura Remedies her feet and limbs were covered with running sores. In about six weeks we had her completely well, and there has been no recurrence of the trouble.

"In July of this year a little boy in our family poisoned his hands and arms with poison oak, and in twenty-four hours his hands and arms were a mass of torturing sores. We used only the Cuticura Remedies, washing his hands and arms with the Cuticura Soap, and anointing them with the Cuticura Ointment, and then gave him the Cuticura Resolvent. In about three weeks his hands and arms healed up. So we have lots of cause for feeling grateful for the Cuticura Remedies. We find that the Cuticura Remedies are a valuable household standby, living as we do twelve miles from a doctor. Mrs. Lizzie Vincent Thomas, Fairmount, Walden's Ridge, Tenn., Oct. 13, 1905."

Frightened By Bomb Explosion.

New York, Jan. 31.—Scores of families living in the five-story tenements on East Twenty-fourth street were thrown into a panic shortly before Tuesday midnight by the explosion of a bomb in the yard at the rear of No. 311. Half-clad women, carrying babies and leading children, ran to the street, where they stood shivering in the snow while the men carried household goods to the street. No one was hurt. The explosion shook the entire neighborhood. A tenement occupant named Schnluger, received some "Black Hand" letters recently. The police think the bomb was thrown from a window to the yard.

Poisoned With Food.

If one were to say that thousands of people regularly and almost systematically poison themselves with food, it would strike the average layman as extravagant. The opinion of the layman, however, cuts no figure when compared with the scientific deductions of one who has carefully observed the facts. How many people are there who select their food with care, eat it at the right time and in the proper way to secure good digestion and subsequent absorption of just the physiologically correct amount of nutriment required to repair the waste incurred by the duties of everyday life? There are very few. Some starve themselves, but the great majority go to the other extreme and constantly overeat. One eats too much at regular mealtimes, while another eats less, but feeds more frequently. In either case the digestive apparatus is overtaxed.—A Physician in New York World.

A Robust Ghost.

John Leech and a member of the Millais family once stayed a night at Cowdray hall, in England, where, many guests being present, the two friends had no alternative but to accept rooms in an isolated wing supposed to be haunted. In the middle of the night Millais awoke, believing that some giant was shaking him violently by the shoulder. This was supposed to be the favorite device of the ghost. He rushed into a corridor and found Leech sitting there trembling and declaring that he would not for the world go back to his room. They spent the remainder of the night in the corridor, but in the morning said nothing of their experiences. In the afternoon there arrived an evening paper telling of a violent earthquake in the locality. The earthquake was what the two visitors believed to be their ghost.

OAKS CHANGES HANDS.

Valuable Property Has Been Purchased by Quartette of Citizens

Another real estate deal of considerable importance has just been consummated here, whereby W. R. Thomas, E. Baird, W. N. Wilson and W. W. Hampton have come into possession of the Oaks Hotel property. The purchase was made from the State of Florida, and it is understood that the amount involved was $8,000.

The Oaks, which was at one time the girls' dormitory of the old East Florida Seminary, is one of the handsomest and most desirably located properties in the city, on one of Gainesville's handsomest thoroughfares. At the close of the Seminary the property was converted into a hotel, since which time it has been operated very successfully.

No statement has been made by the new owners as to what disposition will be made, or for what purpose the building will be used, but it is natural to suppose it will be continued as a hotel.

FEEBLE OLD PEOPLE

Are Much Benefited by the Use of Vinol.

Hundreds of old people right here in Gainesville need just such a strength-maker and body-builder as our delicious cod liver preparation, Vinol; we simply cannot understand why they will continue to drag out a half-dead and half-alive existence, when we guarantee Vinol will invigorate every organ in the body, stop the natural decline, and make them well, vigorous and strong.

If you want to know how an aged, feeble, discouraged man or woman may be made active, cheerful and vigorous, read this letter:

Mrs. Catherine Therer of Albany, N. Y., writes: "Six months ago I felt that I was broken down by age, and I was doomed to the weak and feeble condition of old people. The slightest exertion tired me, and I had no strength. My daughter brought me a bottle of Vinol. I soon felt an improvement; I continued its use, and am now well, cheerful, and stronger than I have been for years; in fact, I feel ten years younger."

Vinol is a stimulant which reacts on the system, but it is a genuine cod liver and iron tonic which in a natural manner makes rich red blood and replaces weakness with strength. We wish every old person in Gainesville would try Vinol on our offer to return money if it fails.—W. M. Johnson, Druggist.

NOTE.—While we are sole agents for Vinol in Gainesville, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.

A FINE SHOWING.

Business of First National Bank of Gainesville Rapidly Increasing.

A statement of the condition of the First National Bank of Gainesville appears elsewhere in this issue, which is not only a credit to the institution, but to this community.

The report shows a total of over three-fourths of a million, with an increase of deposits which is marvellous, the increase being more than $80,000 over the report published on November 12 of the past year. It is doubtful if any other banking institution in Florida with a capital of $50,000 could make an equally encouraging showing.

A Delightful Affair.

J. Scott Broome gave a delightful Welsh rarebit at the home of his parents, Mr. and Mrs. Geo. K. Broome, North Pleasant street, Wednesday evening, complimentary to Misses Mitchell and Willingham of Georgia, Mayer of New York, and Davies of South Carolina, who form a quartette of handsome young ladies visiting friends here. There were seven couples present, and the evening was passed in an informal hop, which was greatly enjoyed.
